Fayetteville State University Score Sheet	apply	of Evidence		ions	
1) Does not use document evidence to write a recommendation on					
language instruction for Fayetteville State University (FSU) students.				G	W. T. SHALLAND SOLL S
2) Does use document evidence to write a recommendation on language					
instruction for FSU students.					
(A) The January 2009 news release presents the benefits of funding the					
proposed study abroad program for FSU students.					
(i) The news release may indicate bias.					
(B) The Miskatonic University study abroad document presents the					
benefits of its study abroad program.					
(i) The Miskatonic University study abroad document only presents part					
of the data.					
(ii) The evidence in the Miskatonic document does not necessarily					
apply to FSU students.					
(C) R. Benjamin and C. Hundley's abstract presents the benefits of					
funding a study abroad program.					
(i) Correlation is not causation.					
(D) According to Sierra Millman's abstract, a National Academies'					
National Research Council report on foreign language requirements and					
study abroad programs only presents part of the data.					
(E) T. Shelby, L. Nadir, and E. Schultz's abstract only reports data on "the					
primary goal of the Study Abroad program."					
(F) The study abroad in Spain flyer mentions the benefits of studying					
abroad.					
(i) The benefits may not apply to FSU students.					
(ii) The flyer makes no claim for enhanced foreign language					
acquisition.					
(G) "The Benefits of Study Abroad" document indicates the benefits of					
studying abroad.					
(i) There is no date on the document to indicate if the data is current.					
(ii) The "Interest in Study Abroad" table only indicates students'					
motivations for studying abroad.
